

## **ILBAA**

Pittsfield School District

### **HIGH SCHOOL GRADUATION COMPETENCIES**

For the purposes of assessment of high school course work through the demonstration of student mastery of course competencies, the following definitions are established:

- **Competencies:** student learning targets that represent key content-specific concepts, skills, and knowledge applied within or across content domains. Specific and required types of competencies include district competencies and graduation competencies.
- **District Competencies:** specific types of competencies that are common across the district and organized in developmental progressions that led to achievement of graduation competencies.
- **Graduation Competencies:** specific types of competencies that are common across the district and define learning expectations for each student for graduation from high school.
- **Mastery:** a high level of demonstrated proficiency with regard to a competency.

Course credit will be awarded through the demonstration of a student's mastery of the competencies of the course. Course credit granted through demonstration of mastery will be counted through traditional methods. Grades and credit granted through demonstration of mastery will be included in the student's grade point average. Students must be enrolled in the particular course in order to receive course credit.

Students who are involved in an approved extended learning opportunity to satisfy course requirements in whole or in part shall demonstrate mastery through a method or methods as approved by the course instructor, as specified in Policy IHBH.

Credit may be used to fulfill prerequisites for other courses and/or subject area credit requirements for graduation. Credit will not be granted, however, for a course in a subject area lower in course sequence than one for which the student has already earned credit.

The superintendent shall establish rules for implementing this policy in cooperation with the administration, and shall be responsible for ensuring that all high school courses include appropriate competency assessments. Competency assessments will be selected, conducted, and reviewed in conjunction with the provisions of Policy ILBA.

Assessments shall be aligned with clearly defined educational standards that specify what students should know and be able to do. The assessment items and tasks shall be valid

## **ILBAA**

and appropriate representations of the standards students are expected to achieve. Assessment standards, tasks, procedures, and uses shall be fair to all students.
